

## WRITING A REPORT ( Preparation stage)

### Practice one

You ask student in your classroom to find out what their music tastes

Note : Place =Jakarta

PROCEDURE ;

1. Ask your students (in group) to make a set of question for survey.
2. Ask them to mention where the survey take place.
3. What kind of methodology they will use  
( a written questionnaire or interview)
4. The students were all given equal time to complete the questionnaire and questions were explained in English.
5. Ask them to have minimum 20-30 student to be their respondent

### QUESTIONS

Favorite Artist

Rich Brian	Bunga Citra Lestari	Arizona Zarvas	Trevor Daniel

8	Robert	Male	Rock	I don't like Dangdut
9	Mia	female	Pop	
10	Tracy	female	All kind of music	I hate Rock

Then , ask your student to summarize their finding into number as mention below.

$$\frac{\text{Number of each answer}}{\text{Total students}} \times 100\% = \dots\%$$

Example : if 7 of 10 students, answer A for question number 1 =  $7/10 \times 100\% = 70\%$

After that, let your student explain their finding and data into a good elaboration to make the people understand.

### **This is the Example**

## **INTRODUCTION**

This report was conducted in order to find out what young Indonesians music tastes and habits are. This survey took place in a vocational high school in Jakarta.

The methodology employed was a written questionnaire. The students were all given equal time to complete the questionnaire and questions were explained in English..

10 SMK students between the ages of 14 and 17 were surveyed. eight of the students surveyed were female and 2 were male. The majority of the students were aged 16 (70%)

## **DETAILS AND FINDING**

### **I. Popular Genres**

**The most popular genre** is pop with 5 students or 50 % of those surveyed indicating this as their favorite. The second most popular is rock with 3 students or 30 % mentioning this as their second favorite genre. Other genre mentioned include K-Pop and reggae

None of the respondents expressed liking for RnB, jazz, blues or dangdut. In fact 2 or 20% of the student said they hate dangdut. The second most hated genre is Rock with 1 student or 14.6% of the respondents expressing their hatred for this music.

### **II. Favorite Artist**

**Indonesian artist** are the most popular artist with 10 of the 10 students or 100 % choosing an Indonesian artist or band as their number one favorite. Four students said Rich Brian is their favorite singer, 3 chose Anggun , two students picked Agnes dan Tulus. All the other were chosen by only one student these were Peter Pan, Andmesh, Bunga Lestari, Raisa and Slank

### **III. Other Music Habits**

**Radio is clearly the most popular medium** chosen by the students with 9 of the 10 (or 90%) saying that most of their listening is to radio. Spotify was the second most popular medium

with only two students using CD. One of the students surveyed use MP3 players and most said they sometimes listen to music on the internet.

The fifteen-year-old males listen to the most music at an average of 28 hours per week. The second highest listening group is sixteen-year-old females at 20.42 hours per week. The lowest is seventeen-year-old females at 14.6 hours per week. However, it is important to note that there were only 3 seventeen-year-old females in the survey.

### **CONCLUSION**

It appears that SMK students, certainly those in Jakarta, have keen interest in music. Their music tastes vary across many genres although pop and rock are the clear favorites. Students favour both Indonesian and international artist, although Indonesian artist are more often chosen as students' number one favorite. What is interesting is that no single Indonesian artist or band is favoured far above the rest. Dangdut is clearly extremely unpopular with this age group in Jakarta
